UPDATE RELEASE 2024.1

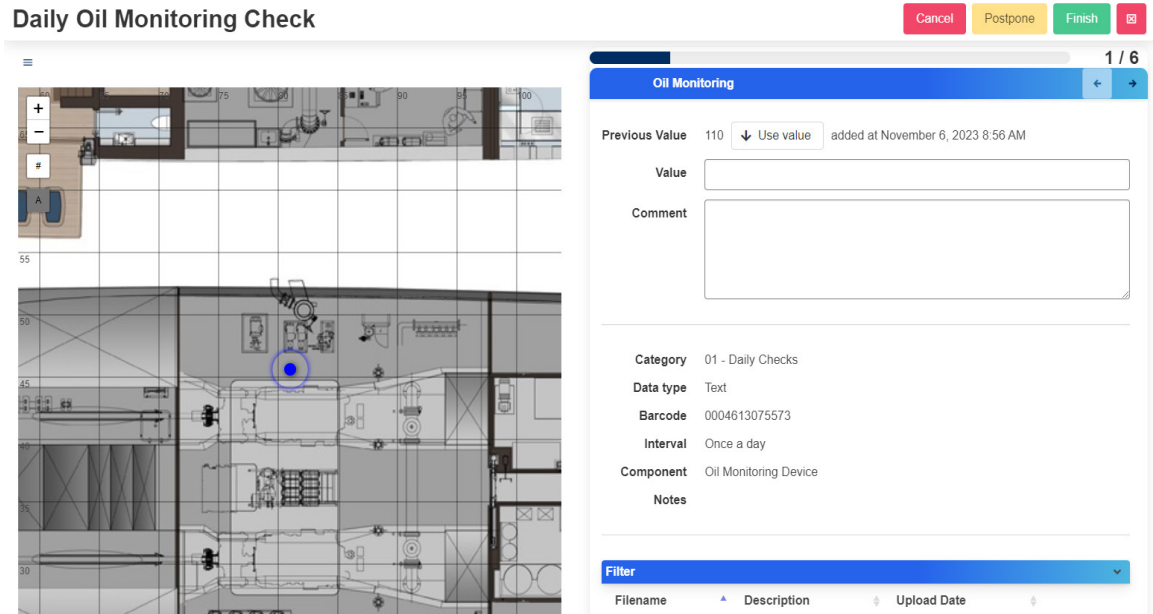

2024.1 Key changes

The latest IDEA YACHT software release 2024.1 introduces significant improvements and new features for enhanced user experience. In the Logs and Rounds module, a redesigned frontend streamlines the update workflow and facilitates the creation of rounds with drag-and-drop, step-by-step wizards, and layout controls. Performance improvements optimize running rounds. The Maintenance module now features a customisable history table, and snag lists support custom tags for efficient sharing.

The IDEA App introduces Dark Mode for nighttime use. The Spectro | Jet-Care Integration provides real-time tracking of lab samples with suggested intervals. Purchase Order (PO) approvals are expedited, and a new notification system allows users to define groups for system actions. The new IDEA Crew Board module simplifies crew check-in/out without logging into IDEA. Additionally, a module for Alcohol Tracking monitors volume and alcohol levels with a specialised report. These updates collectively enhance functionality, usability, and communication within the IDEA YACHT software.

Improvements: Logs and Rounds – All-New Frontend

Experience a redesigned frontend for the Logs and Rounds module, enhancing user interface intuitiveness.

Creation of Rounds

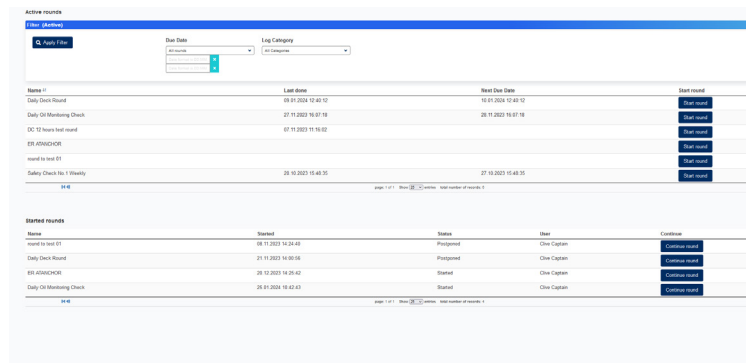

- Simplify round creation with intuitive drag-and-drop support.
- Utilise a step-by-step wizard (above) for systematic round creation.

Simplified Update Workflow

- Navigate a streamlined update workflow for enhanced efficiency in managing rounds.

Running Rounds

- Benefit from a completely new frontend, providing clearer list view for better visibility
- Swiftly update entry points, ensuring efficient round management.
- Choose your preferred navigation method, including layout control, list view, or step-by-step control.

Improvements: New Maintenance History Table

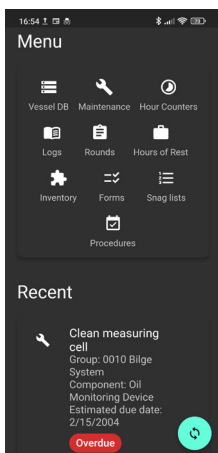

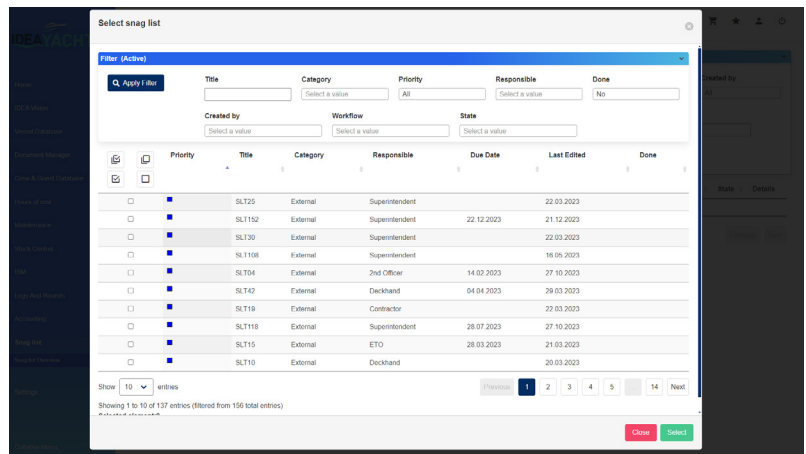

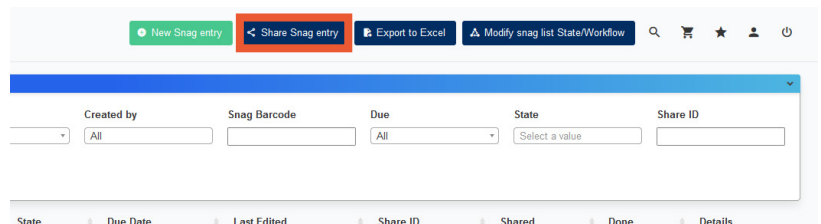

- Customise displayed columns in the new Maintenance History table.
- Added a column to display the user who performed a specific task (above)

IDEA YACHT Release 2024.1

Improvements: Snag List

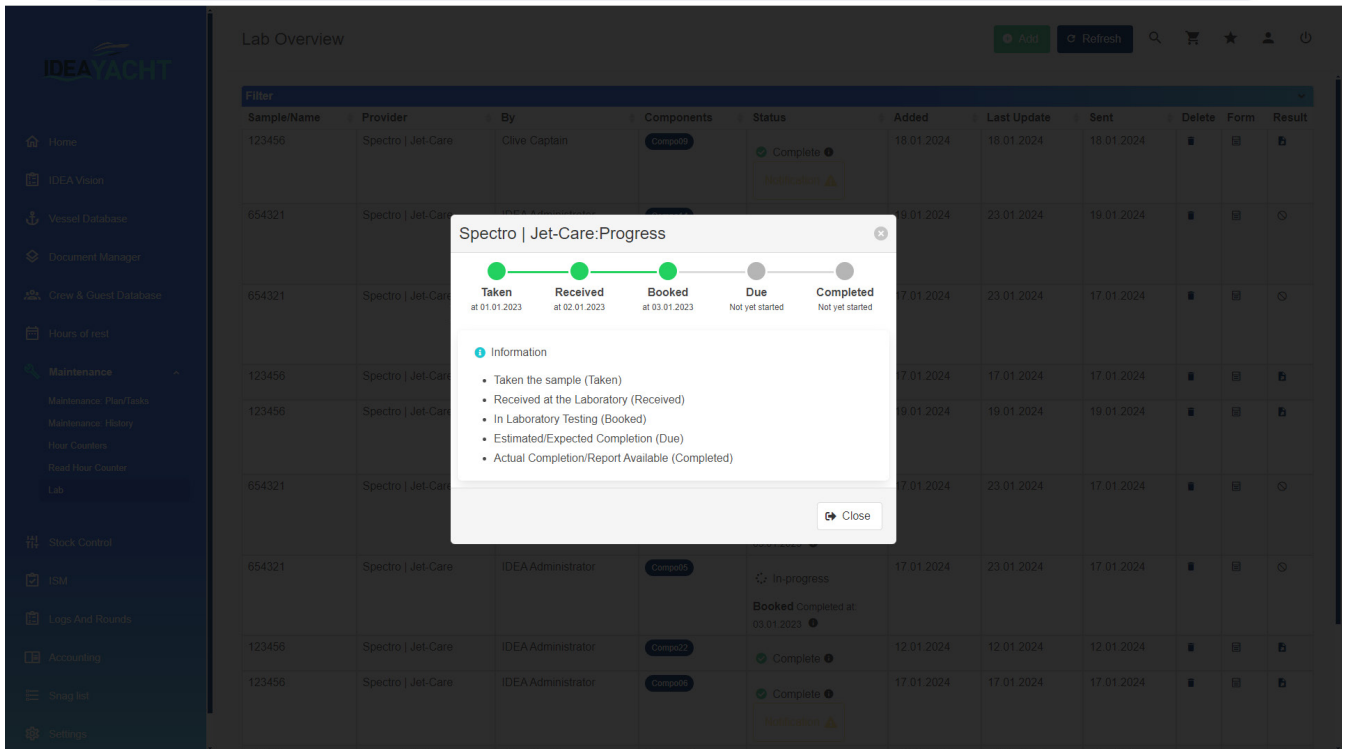

- Snag lists now support custom tags for enhanced categorisation. (above)
- Share multiple snag lists from a workflow with a single click. Choose 'Share Snag Entry', enter the email(s) to share with and then select the multiple snags you'd like to share. (right)
- When connecting components/tasks and closing the Snag List, a history record is created in related components.

New Feature: Dark Mode for the IDEA App

- Run the app in dark mode for reduced brightness, ideal for nighttime usage.

IDEA YACHT Release 2024.1

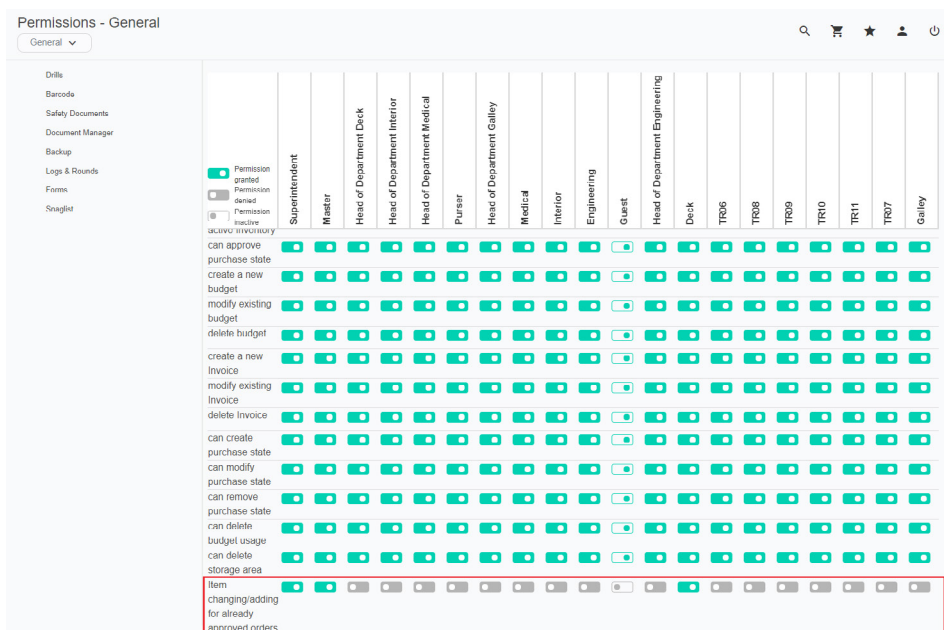

New Feature: New Spectro | Jet-Care Integration for Lab Samples

- Track the exact location of lab samples, similar to parcel tracking.
- Create sample interval tasks based on Spectro | Jet-Care's suggestions to ensure timely sampling.

New Feature: Purchase Order (PO) Approval Changes

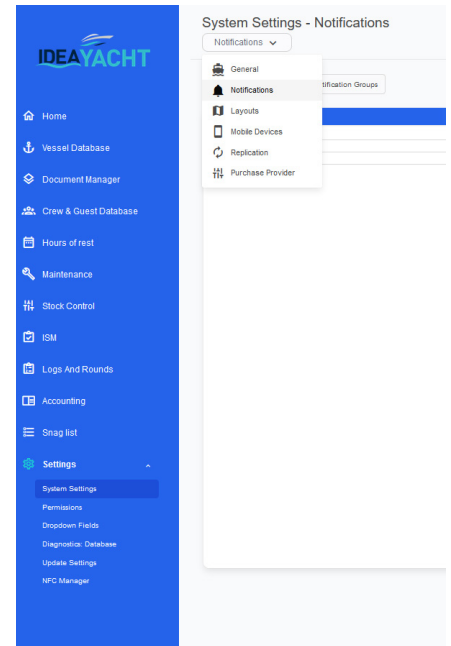

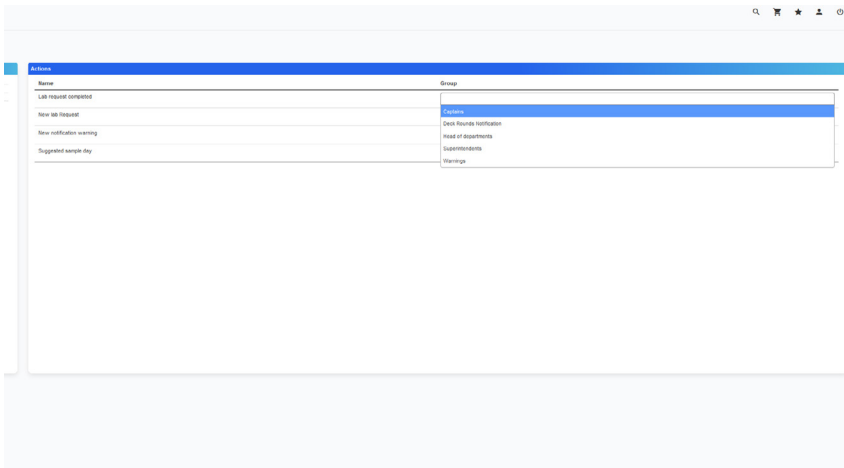

- Expedite approval and move to the next state in a single click.
- Grant Purser permission to add elements after approval, useful for unforeseen costs. Navigate to 'permissions' in 'settings' to enable this new feature (right)
- Request re-approval for changed purchase orders.

IDEA YACHT Release 2024.1

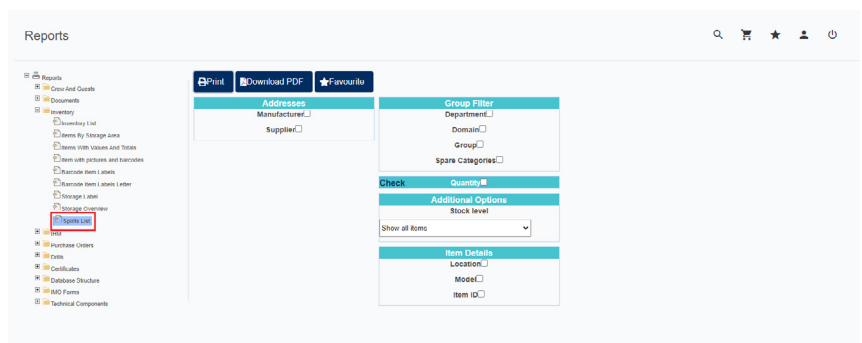

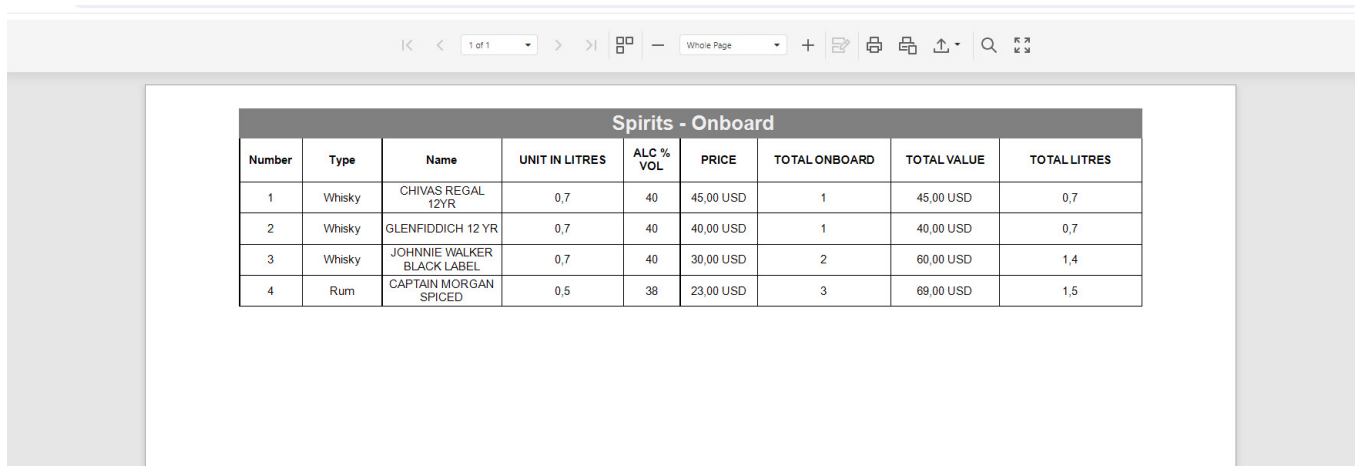

New Feature: Complete New Notification System

- Define groups for system actions, such as snag list creation. Navigate to the 'notifications' section of 'system settings' (right) to define notifications groups (below)
- Manage notifications centrally, with potential integration for custom notifications or third-party gateways.

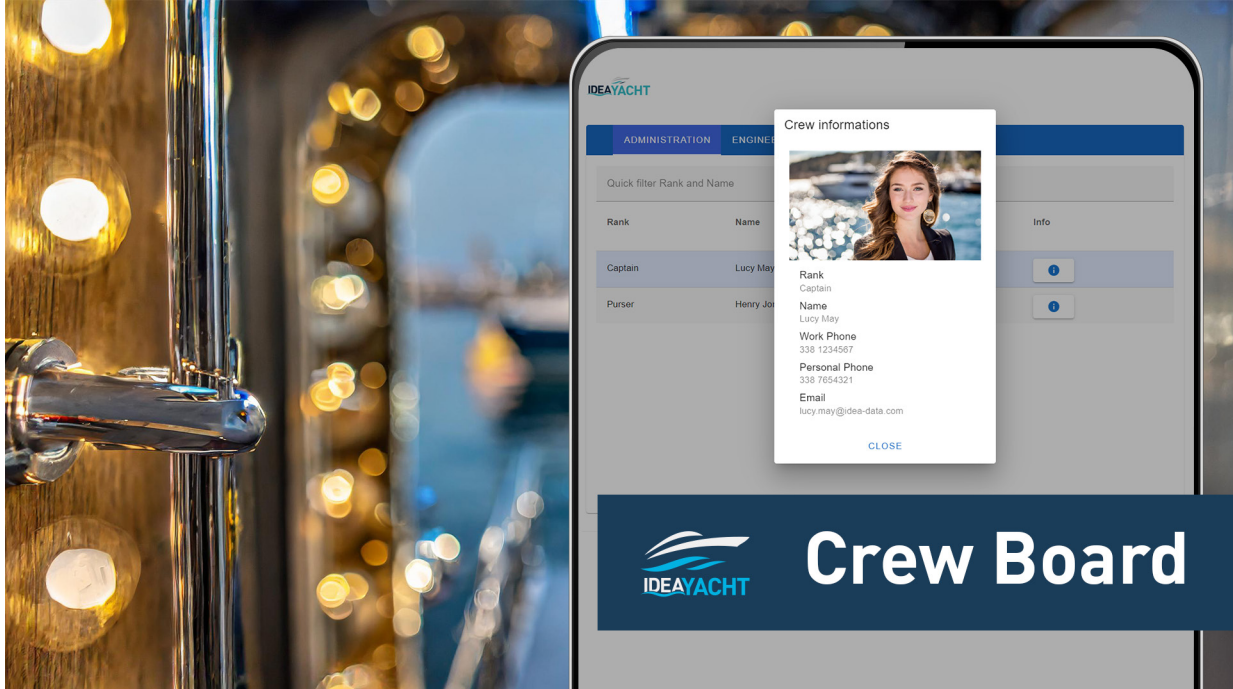

New Feature: Alcohol Tracking for Tax/Customs

- Track volume from spare parts and alcohol levels on board.
- Generate a special report detailing the total amount of alcohol on board. Navigate to the 'reports' section (right) to generate (below)

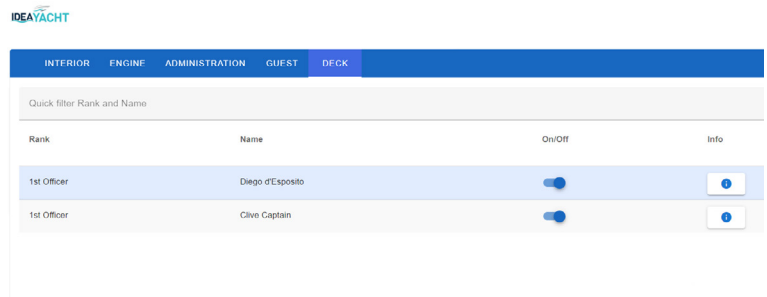

Spirits - Onboard								
Number	Type	Name	UNIT IN LITRES	ALC % VOL	PRICE	TOTAL ONBOARD	TOTAL VALUE	TOTAL LITRES
1	Whisky	CHIVAS REGAL 12YR	0,7	40	45,00 USD	1	45,00 USD	0,7
2	Whisky	GLENFIDDICH 12YR	0,7	40	40,00 USD	1	40,00 USD	0,7
3	Whisky	JOHNNIE WALKER BLACK LABEL	0,7	40	30,00 USD	2	60,00 USD	1,4
4	Rum	CAPTAIN MORGAN SPICED	0,5	38	23,00 USD	3	69,00 USD	1,5

New Module: IDEA Crew Board

- An easy-to-use extension of IDEA YACHT for checking in/out crew.
- No need to log in to IDEA YACHT separately.
- Separated by departments, allowing quick access to contact information.
- Always updating live with IDEA YACHT.
